-Brainstorm Session 2-

CONCEPTS: TIME and SPACE (by way of the Universe).
Museum's concepts: ART, ENVIRONMENT, MUSIC, HEALTH

Problem: Child Obesity
Audience: Children Ages 4-7

Purpose: To impress the User with an understanding of Space and Earth's Physical relationship to the Universe.

-Some things to think about-

What is a Concept? What is it your trying to convey?

- an idea or invention to help sell or publicize a commodity
- Philosophy an idea or mental picture of a group or class of objects formed by combining all their aspects.

Everything has a Purpose. For Example: Cargo Ship, Map of World on Floor.
Understand the Nature of your Idea, Break it Down, What is Important.

How does the environment effect movement?

MOVEMENT. PHYSICS. GRAVITY. FRICTION(Comet is in frictionless environment). SPACIAL RELATIVITY, DISTANCE, BIG BANG THEORY, WIND.

Space?

- the near vacuum extending between the planets and stars, containing small amounts of gas and dust.

Is Space this, or everything else? Environment? Isn't the universe just a lack of Environment?

Meteor? What is the difference between a Ball and a Meteor?

Make it Happen: MAZE

Game it get to Pluto most difficult to get to.

In three years we could use Kinect4 PLUS:

- 1.) You won't need an XBOX
- b.) Low Maintenance
