

NMD 306  
Group Meet

Maine Day  
Wednesday, April 30<sup>th</sup>, 2014

IMRC 9:05 am  
Jay coming at 9:30  
Call Andrew.

**-GREEN SCREEN AND LIGHTING KIT-**

Neil says if we ask someone in the equipment room, we can use the lighting equipment from The Big Room. Green-Screen that they have, is with Brandon (taller guy, some facial hair). Maybe he'll return it today, maybe not. The Screen we have is cool, but we **MUST** light it properly.

Kids need to get out more often.

The Maine Discovery Museum is giving the University of Maine an opportunity to design an exhibit that gets kids active.

As a part of NMD 306, Professor Mike Scott's students have visualize exhibits that deploy concepts which they understand to be important to children ages 4-12 years of age.

Play during Presentation  
Present it Personally.
